Consultant Knowledge Enablement

Breath

Depth

N.B: Partners will follow the same learning journey as internal Service Consultants

eLearning

- Provide a standardized, consistent education via structured learning journeys.
- Automated, streamlined certification process to assess knowledge gained from courses.
- Access anytime, anywhere

Facilitated Training

- Provides a more tailored and practical training program to partners and Services consultants.
 - Helps 'bring to life' the theory, gained from the eLearning foundation.
 - A blended learning approach supports improved knowledge enablement.
 - Creates a revenue stream by commercializing the offering.
- Formally introduce a Training Operations capability, to leverage the opportunity.
- A Training Operations Manager role being recruited to:
 - Create the necessary frameworks;
 - Commercial model;
 - Go to market strategy
 - Facilitated training delivery platforms

Implementer Simulation

- Provides a practical 'hands-on' learning method to simulate real world implementations within a safe, learning environment.
- Supports the learning journey of new partners, internal Service consultants.
- Offers a case study-based simulation.
- Learners use **SYSPRO Labs** to build a solution to satisfy the case study business and functional requirements.
- Submissions are formally assessed with feedback provided to each candidate to support learning.
